Thank you

CONDITIONS OF USE

Thank you for giving our company the opportunity to help you with cleaning up your house and yard. Below are the conditions of use for Cut Price Skips. Please read them to ensure a smooth transition from drop off to pick up of your skip, for both your household and our company.

CONTENT RESTRICTIONS

Each load we dump at landfill is inspected by ACT NoWaste. DO NOT put asbestos, oil, batteries, chemicals or hazardous waste into your skip. While you are permitted to put insulation into the skip, ACT No Waste regulations state that all insulation must be placed in bags. Tyres while accepted, will incur extra tip charges (\$5 per normal car tyre). Mattresses and bed bases also incur an additional fee of \$55 each.

FILLING THE SKIP

Please do not fill your skip above the top of the bin / water level. We must ensure the skip is safe to transport on the road and adheres to health and safety regulations as set out by the RTA. If the skip is overfilled we do reserve the right to remove part of the contents in order to comply with these regulations. An extra fee will be charged for overloaded skips.

PLEASE DO NOT MOVE THE SKIP

Once the skip has been delivered, it is important that you do not move it. Our truck must have the same access and overhead clearance on pick up as it had on delivery.

HEAVY BIN CHARGES

At this stage you have already informed our staff of what you will be putting into the skip, you were quoted a price and have paid according to that information. As a reminder heavy bin charges apply to skips that contain four or more solid hardwood sleepers or more than two wheelbarrow loads of dirt/soil, rocks, bricks, concrete, tiles etc. As we are charged by the weight of what we dump at Canberra's Waste Management facilities, this type of material substantially increases the tip fees we incur and the heavy bin charge simply covers that increased cost. Currently ACT Government tip fees are \$180.00/tonne.

As a guide, included in the initial price of your bin are the following weights or tip charges.....

2 meter bin - 300kgs = \$54	3 meter bin - 450kgs = \$81	4 meter bin - 600kgs = \$108	6 meter bin - 900kgs = \$162
9 meter bin - 1350kgs = \$243. Any tip fees incurred over these amounts will be payable by the client.			

DROP OFF AND PICK UP

Please note our trucks can weigh up to 12 tonne unloaded and as a result loading and unloading of a bin may damage your concrete driveway, pavement, pathway, grass, tree branches or surfaces, including any underground watering systems.

While all care is taken, Cut Price Skips does not accept any responsibility for any damage caused as a result of delivery or pick up of the skip.

EXTENSIONS

Hire extensions are charged at \$10 per day or \$50 per week. All extensions must be made prior to pick up by calling our office. **Please ensure any extensions are arranged prior to time of pick up or a \$50 travel charge will apply.**
